COLORECTAL HEALTH *for* TRIBAL CHRs

Monday, June 18th & Tuesday, June 19th 8:30 a.m. – 4:00 p.m.
Isleta Golf Club | Isleta Resort & Casino | Isleta Pueblo

COURSE DESCRIPTION

This training has been designed specifically for Tribal Community Health Representatives (CHRs) to strengthen skills and knowledge in providing community colorectal health education and outreach services. Participants will learn about 1) anatomy of the digestive system, 2) colorectal cancer among American Indians, 3) screening exams for colorectal cancer early detection, 4) colorectal cancer risk factors, and 5) colorectal cancer diagnosis and treatment. Teaching strategies include interactive activities, videos, digital stories, games, and classroom instruction. All participants will take home materials for use in their community health education activities. Join us!
