

Tribal Environmental Public Health Tracking Symposium
Friday, September 28th, 2018
Sheraton Albuquerque Uptown
9:00AM-3:00PM

The mission of the Tribal Environmental Public Health Tracking Symposium is for attendees: 1) to network with tribal, state and government environmental health representatives, 2) to learn about resources available at the NM Department of Health Environmental Public Health Tracking and Indian Health Service Division of Environmental Health Services, and 3) to participate in roundtable discussions to identify environmental concerns in tribal communities.
